

Monique Y. Wells is the
Founder and President of ***Making Productivity Easy*** –
Productivity and Time Management Training and Mentoring.

Productivity = knowing what matters and getting it done

In working with **Making Productivity Easy**, you will assure that every project you accept in your business aligns with your purpose, mission, and vision and is completed efficiently and effectively. You will find joy, passion, and profits in your business and enjoy less stress, more income, greater “job” satisfaction, and more time to spend with family and friends - guilt-free!

Dr. Monique Y. Wells is a 21-year resident of Paris, France.
A native of Houston, Texas, USA, she is known as the Paris Muse of Productivity™.

Monique owns two small businesses - one as a solopreneur and the other with her husband.
After having worked in the corporate world for 13 years, she launched a scientific consultancy in 2002 that quickly grew into a multi-six-figure business. With the onset of the recession and a wave of layoffs in her industry that adversely affected her client base, she began training and mentoring her colleagues in time management. She subsequently expanded her market to include service-based women solopreneurs and small business owners.

Monique's mission is to help these passionate, high-achieving professionals clarify their daily work objectives and simplify their work day so that they can find peace through productivity. Her clients enjoy less stress, more income, greater job satisfaction, and more time to spend with family and friends - guilt-free!

Monique's brand is Making Productivity Easy. She is the creator of the “30-Day Productivity Kick Start” system and is the author of three e-books on various aspects of productivity.
